Ecosystem and Tokenomics Summary

The total supply of **\$DRCAT** is capped at **21 million tokens**. Here's how it will be distributed:

- **65%** of the supply will be available for community holders during the **presale phase** to ensure fair distribution and prevent any single entity from monopolizing the supply.
- **2%** is reserved for the **airdrop phase**, reducing the risk of token dumping after launch.
- **8%** is allocated to gaming incentives, promoting community engagement and participation.
- **14.5%** will be preserved in the non-circulating supply.
- **5%** will remain in the **Token Owner Wallet** for token price stability.
- **5.5%** for the **Project team** which will be used for future project development and strategic use.

Buy/Sell Tax and Rewards

\$DRCAT applies a **1% buy/sell tax**, which funds the token rewards system:

- **25%** of the tax collected is reinvested into backed assets like gold and real estate.
- **3%** is distributed annually in January to the **top 100 holders** as rewards.
- **40%** is distributed to the early investors.
- **10%** is burned, effectively enhancing liquidity.
- The remaining funds are allocated to project development and community initiatives.

Additionally, profits from backed assets are managed as follows:

- **28%** is reinvested into the backed assets.
- **40%** distributed to investors.
- **10%** is burned and added back to liquidity.
- **22%** is allocated to the project team to support operations and growth.

Launch and Price Prediction

After the presale and token distribution, **\$DRCAT** will launch for public trading on **Raydium** within **7 days**, followed by listings on centralized exchanges (CEX).

With its low supply, fair launch, and community-first approach, **\$DRCAT** stands out from other meme coins. It offers unique features such as passive revenue generation for holders, especially the **top 100 holders**, who directly benefit from trading volume.

Price Potential

Thanks to the limited supply, robust tokenomics, and strategic initiatives like presales, gaming fees, donations, CEX listings, and major marketing campaigns, **\$DRCAT** aims to reach a price target of **\$30** on the launch

Our innovative approach ensures **\$DRCAT** remains relevant and valuable in the long term, distinguishing it from other meme coins. By joining now, you become part of a community-driven project poised to make a difference in the crypto market.
